

# O Christmas Tree!

**Nothing lifts the Christmas spirit like a beautifully decorated tree. The magical moment when the lights are switched on is the highlight of December. We've lavished loads of love on our baubles and trinkets again this year.**

At Flying Tiger Copenhagen, we think the Christmas tree deserves all the attention it can get. After all, everyone's eyes are fixed upon it. There will be oodles of ornaments to choose from this November and thus plenty of ways to upgrade your festive foliage.

We give you a contemporary take on Christmas: Fancy having a pizza slice, a popcorn machine or a shuttlecock hanging from your tree? If you prefer your baubles bold and bright, spangled or full of glitter, we got something for you too. And then we bring you the finest felt figurines in a Nordic design, they're some of our favorites.

You can mix and match your Christmas tree decorations however you like, and at a surprisingly nice price.

A rich Christmas doesn't have to cost a fortune. A least not at Flying Tiger Copenhagen.

**Arrives in stores in November and costs from 10 kroner / 1 Euro.**
